

The Jersey Music Association is calling upon all local singers and singing groups to join with them and celebrate the power of singing by making 2022 a “Year of Song”.

The Association would like the year to be filled with song to showcase the incredible depth and breadth of singing talent in the Island.

The last two years have seen many singers and groups silenced by the pandemic. We are excited that a return to singing is underway and we would like to celebrate this.

Groups may already have a date in the diary which they could consider offering as part of the “Year of Song” or perhaps use it as the impetus to arrange something new.

As part of the Year of Song, the Association is also keen to bring singing into interesting venues across the island which might not traditionally be available as performance spaces. The Association would like to hear from anyone who could offer such a space for an event during the year.
